# OHL Priority Selection Process

In 2001, the Ontario Hockey League conducted the annual Priority Selection process by way of the Internet for the first time in league history.

The new process allowed for eligible players and their families, as well as fans across the league to follow the process in real time online.

The 2008 OHL Priority Selection will once again be conducted online on Saturday May 3, 2008 beginning at 9:00 a.m. You can follow the entire process online at [www.ontariohockeyleague.com](http://www.ontariohockeyleague.com).

## Player Eligibility

North American players born between January 1, 1989 and December 31, 1992 from protected OHL territories are eligible for selection in the 15 rounds of the 2008 OHL Priority Selection.

## Selected Players in the OHL

OHL Member Teams are permitted to register a maximum of four 16 year old players selected in the OHL Priority Selection. Those 16 year old players that are allowed to be signed are the first two 16 year old players selected and a maximum addition of two 16 year old wild carded players in any round of the OHL Priority Selection.

All other 16-year-old players selected are eligible to be called up as an "affiliated player" or "floating affiliate player" for a maximum of 10 games or for any OHL regular season or playoff games when such player's team has been eliminated from competition for that season.

## Order of Selection

The order of selection is determined by inverse order of finish during the past OHL regular season schedule of games

with non-playoff teams selecting ahead of playoff teams.

Teams are permitted to trade draft choices, other than their first round selection, during the trading period from Monday April 28 to Friday May 2, 2008 at 3:00 p.m.

## OHL Central Scouting

The Central Scouting Bureau of the Ontario Hockey League is an information service and support organization designed to provide the Member Teams with a reference in regards to the players available for selection in the annual "Priority Selection Process."

The primary objective of OHL Central Scouting is to identify, rate and rank players to be eligible for the Priority Selection, according to their OHL potential. OHL Member Teams combine player data received from the Central

Scouting Bureau with evaluations from their team scouting staffs to make their player selections.

The OHL Central Scouting Bureau has been evaluating players since the 1975-76 season.

# OHL Scholarship Program

- Once a player graduates from the OHL, he will receive a minimum scholarship of tuition, textbooks and compulsory fees towards an undergraduate degree for each year played in the Ontario Hockey League.
- The OHL Scholarship can be applied to a program that is different than a traditional university or college four-year undergraduate degree / diploma program such as a Technical or Trade School, Firefighting or EMS.
- The OHL Scholarship Program is administered through the league office.

## Other scholarship criteria to note:

At the conclusion of a player's junior eligibility the player has 18 months to access his scholarship therefore allowing him to play minor professional hockey.

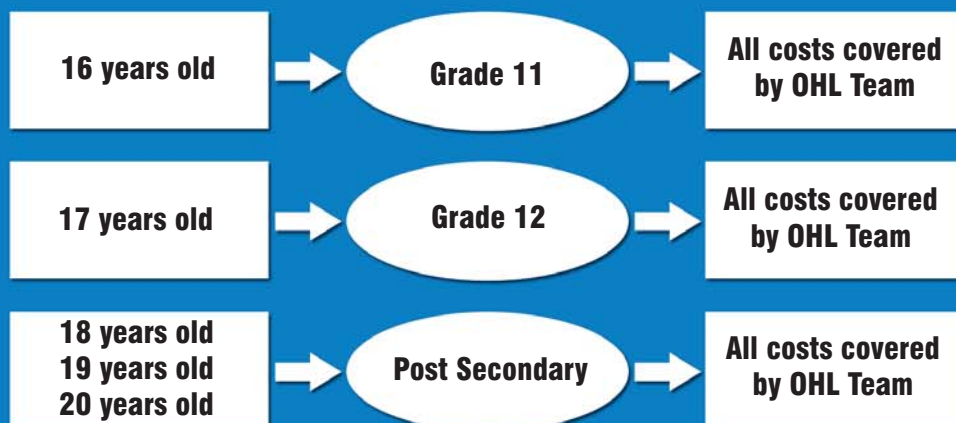

A player's scholarship may be utilized at any recognized university/college in the world.

GP	G	A	PTS	PIM

**Scouting Report:** Meurs is a highly skilled, offensive minded player that has a ton of upside and potential. He has some moments where he can take over a game and dominate. He is a deceptive skater and once he gets the puck it is as if his skating is transformed. He shows speed and quickness, and an exceptional burst off the mark. When you combine that with his excellent puck handling ability you have a player that is very dangerous offensively.

## TREVOR MORBECK

RW Team Illinois U-16's

Ht: 6.01 Wt: 185 lbs 11/21/1993 Home: Jackson, Wisconsin

GP	G	A	PTS	PIM

**Scouting Report:** Morbeck is a big winger that possesses some physical tools. He plays a pretty simple and effective game, skating up and down his wing supporting the puck and the play while doing all the little things that helps a team to be successful. He skates well for a bigger man, utilizing a long strong stride that generates power. He is hard to move from in front of the net. He also displays a better than average touch with the puck.

## JONATHON MILLER

Miller possesses some speed and quickness and effectively creates time and space to operate. He reads the game quite well and will work hard to get back into his own zone. Miller is a player that can put the puck in the net and is always working to get himself to the open ice to create scoring opportunities.

## STEFAN NOESEN

**Scouting Report:** Noesen is a big, physical center that plays a real hard-nosed style of game. He possesses a very good combination of physical tools; he skates well considering his size, displays soft hands and a real touch with the puck while using his size effectively. He seems to relish playing in traffic while showing a willingness to compete in all three zones. Noesen shows the odd flash of quickness and he is always moving his feet.

**Scouting Report:** Puempel is a smart, honest and creative hockey player. He plays a quiet but effective game, consistently putting up points while making those players around him better. He possesses excellent physical tools and skills but he plays a surprisingly unselfish game. He possesses a pretty effective stride, and has the ability to use a top gear when he needs it. **Scouting Report:** Quine is a very smart, two-way center who is effective in all three zones of the ice. He is an excellent skater that possesses a very smooth stride. Quine is very efficient - he doesn't seem to waste one stride. He seems to instinctively know when to use his top gear and just seems to fly all over the ice. He reads the play exceptionally well and seems to always get into a space where he can contribute and influence what is happening on the ice.

**Scouting Report:** Sandlak is an effective up and down winger who goes about his game in a very business like manner. He finishes all of his checks, competes and plays hard consistently while showing improvements to his offensive productivity since the start of the season. While Sandlak projects to be a prototypical power forward at the next level, he does display a little more offensive productivity and creativity than the average physical winger.

He possesses good size and has a frame that should allow him to add some more size. He has a good stick and makes some very effective plays. He is very good along the walls and in the corners, basically all the tough areas of the ice. He plays the role of a big body that will do a lot of the heavy lifting - working the corners and the boards.
